Diplomacy is one of the most fundamental elements of international relations, and foreign diplomats not only protect the interests of the state they represent in the countries they serve, but also contribute to the strengthening of cultural, social and political ties. Therefore, it is of great importance for a diplomat to know the history, legal system, political structure, social dynamics and cultural norms of the country he serves in order to carry out an effective diplomatic mission.

This book has been prepared to shed light on the basic issues that foreign diplomats may encounter in the countries they serve. The content, which is addressed with a wide perspective from the legal framework to diplomatic protocols, from social sensitivities to official procedures, is of a nature to guide diplomats. Our aim is to ensure that diplomats act more consciously and effectively in the countries they serve, to facilitate their cultural adaptation and to help them build a healthy bridge in international relations.

I would like to thank all the authors and experts who contributed to the preparation of this work, and I hope that the book will be useful for all diplomats and international relations professionals.

Diplomasi, uluslararası ilişkilerin en temel unsurlarından biridir ve yabancı diplomatlar, görev yaptıkları ülkelerde yalnızca temsil ettikleri devletin çıkarlarını korumakla kalmaz, aynı zamanda kültürel, sosyal ve siyasi bağların güçlenmesine de katkı sağlarlar. Bu nedenle bir diplomatın, görev yaptığı ülkenin tarihini, hukuk sistemini, siyasi yapısını, toplumsal dinamiklerini ve kültürel normlarını bilmesi, etkili bir diplomatik misyon yürütmesi açısından büyük önem taşır.

Bu kitap, yabancı diplomatların görev yapacakları ülkelerde karşılaşabilecekleri temel konulara ışık tutmak amacıyla hazırlanmıştır. Hukuki çerçeveden diplomatik protokollere, toplumsal hassasiyetlerden resmi prosedürlere kadar geniş bir perspektifle ele alınan içerik, diplomatlara rehberlik edecek niteliktedir. Amacımız, diplomatların görev yaptıkları ülkede daha bilinçli ve etkin bir şekilde hareket etmelerini sağlamak, kültürel uyumlarını kolaylaştırmak ve uluslararası ilişkilerde sağlıklı bir köprü kurmalarına yardımcı olmaktır.

Bu eserin hazırlanmasında emeği geçen tüm yazar ve uzmanlara teşekkür eder, kitabın tüm diplomatlar ve uluslararası ilişkiler profesyonelleri için faydalı olmasını temenni ederim.

THE INDEPENDENCE MARCH

Mehmet Akif ERSOY

Fear not! The scarlet flag rippling at dawns shall not wither
While my country's last smoking hearth is yet aflicker.
She is the star of my nation: she is meant to blaze and shine;
She belongs to none but my nation alone, she is mine.

Do not frown, I beseech you, oh coy crescent!
But smile at my valiant race. Why this angry, why violent?
Lest our blood spilt for you be unblessed and worthless.
For my nation, who worships God, has the right to independence!

I have been free since eternity, and free shall I be.
What fool dares to shackle me? I defy the temerity!
I am like a roaring flood; I overflow trampling down my banks,
I tear apart mountains, surge into depths, and surpass.

Western horizons may be encircled by walls armoured in steel
But I have my chest brimful of faith as my homeland's frontier.
Let it howl, fear not! How can it smother such solid faith
That single-fanged monster, "Civilisation!" as you call it?

My friend! Never ever let the dastards into my land!
Render your body a shield; bring this heinous raid to an end.
For soon shall break the blissful days God promised, for sure;
Perhaps tomorrow, who knows, perhaps even sooner than that.

Do not assume what you tread on is mere "earth", recognise it!
Think of the thousands, without shrouds, lying beneath.
You're the son of a martyr, take shame, hurt not your ancestor;
Cede not this heavenly homeland, even if it's the worlds you're granted.

Who would not offer his life for this homeland of paradise?
Martyrs would pour forth, all martyrs, should one simply clutch the earth!
If God will, He may take my life, my beloved, and my wealth,
But may He not, for the world, just deprive me of my homeland.

The sole wish of my soul, oh glorious God, from You is that,
No heathen would ever, on the bosom of my temple, lay hand!
These calls to prayer, whose testimonies are the ground of religion,
Should resound far and wide over my eternal homeland.

Then, my tombstone, if any, prostrates in rapture a thousand-fold,
Of my every wound, oh glorious God, tears of blood gush forth,
And out spurts my corpse, in pure spirit, from the ground,
Perhaps then, shall ascend and to the heavens touch my crown!

So ripple and wave, like dawning skies, oh glorious crescent,
So that every drop of my blood finally be blessed and worthy!
Neither you nor my race shall ever be annihilated,
For my flag, who has lived ever freely, has the right to liberty;
For my nation, who worships God, has the right to independence!

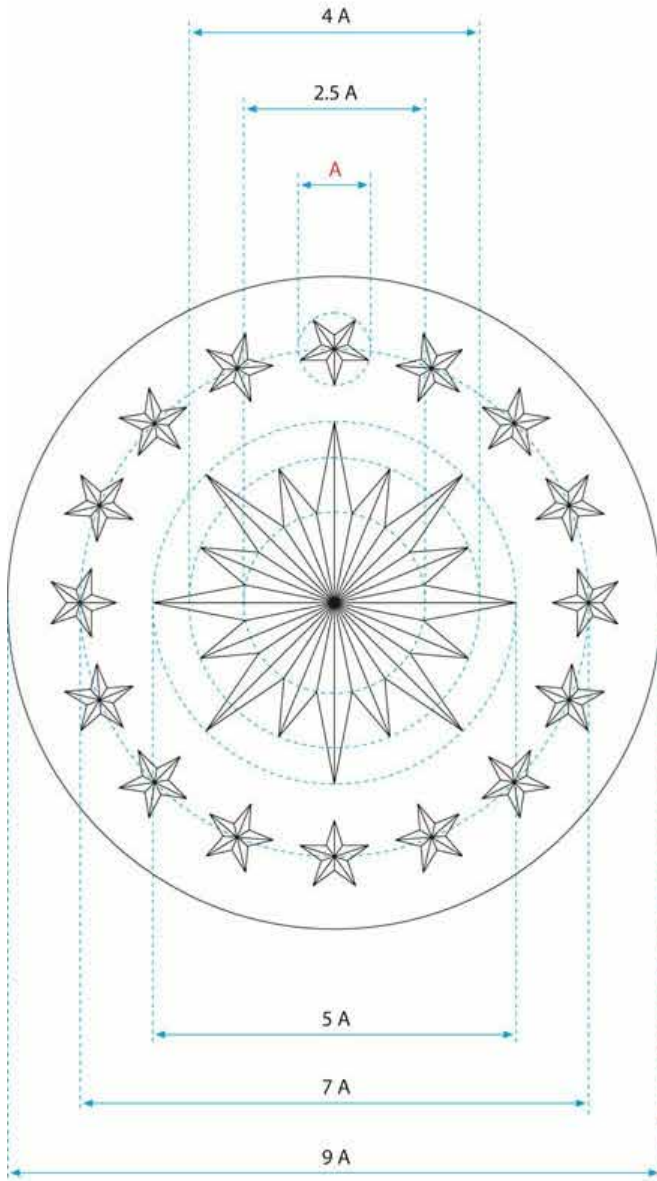

The Turkish flag is composed of a white crescent and star on a red background as prescribed in the Article 3 of the Constitution of the Republic of Türkiye.

The symbol, which is composed of a sun with 8 long and 8 short rays surrounded by 16 stars, is named “the Presidential Seal.”

The sun represents the infinity of the Republic of Türkiye and the 16 stars represent the 16 independent great Turkish empires in history. This seal is the Presidential Emblem.

A= Diameter of the circle touching the tip of the star

Measurement of the Seal

The 16 stars are aligned with a 22.5 degree angle, equidistantly surrounding the sun. One edge of each star points to the center of the sun.

The unit of measurement of the seal is the diameter of the circle around the edges of any one of the 16 stars (A). The lengths of the rays of the sun, the distance between the rays and the edges of the stars and the diameter of the outmost circle are determined as multiples of the unit A.

Mustafa Kemal was born in 1881 in Salonika, then a province of the Ottoman Empire, as the son of Ali Rıza Efendi and Zübeyde Hanım. He lost his father while he was still a young boy. He began his primary education at the Şemsi Efendi School in Salonika and continued at the Salonika Military Middle School and the Monastir (Bitola) Military Preparatory School. In 1899, he entered the Istanbul War College, graduating as an infantry second lieutenant in 1902. He completed his studies at the War Academy in 1905, graduating with the rank of staff captain.

Mustafa Kemal was assigned to the 5th Army in Damascus in 1905 and the 3rd Army in Macedonia in 1907. While serving in Monastir and Salonika, he took part in the Operations Army, which suppressed the rebellion in Istanbul known as the 31 March Incident. Similarly, he participated in the military operations to quell the uprising in Albania.

In 1911, following the Italian occupation of Tripoli, he was dispatched to Tobruk. He successfully led the Turkish forces in Tobruk and Darnah. Between 1912 and 1913, he participated in the Balkan Wars with the rank of major and served in the army corps that recaptured Edirne from Bulgaria.

He returned to Istanbul following the Armistice of Moudros. He later departed Istanbul as an army inspector, though his secret objective was to end the Allied occupation of the country.

The War of Independence and the Republic

After arriving in Samsun on May 19, 1919, via the Black Sea, Mustafa Kemal issued the Amasya Circular on June 22, 1919. He declared to the Turkish nation that “the integrity of the country and the independence of the nation are in danger,” and that a congress would convene

Dünya Savaşı sona erdi ve Mondros Mütarekesi’nin ardından İstanbul’a döndü. Gizli hedefi ülkenin İtilaf Devletleri tarafından işgaline son vermek olmasına rağmen, ordu müfettişi olarak İstanbul’dan ayrıldı.

Milli Mücadele ve Cumhuriyet

19 Mayıs 1919’da Karadeniz yoluyla Samsun’a ulaştıktan sonra, 22 Haziran 1919’da Amasya Genelgesi’ni yayımlayarak Türk milletine, “vatanın bütünlüğünün ve milletin bağımsızlığının tehlikede olduğunu, vatanın azim ve kararlılıkla kurtarılması için Sivas’ta bir kongre toplanacağını” ilan etti. Ardından, Osmanlı hükümeti tarafından verilen görevlerinden ve askeri makamından istifa etti. Mustafa Kemal, sırasıyla 23 Temmuz 1919 ve

in Sivas to save the nation with determination. Subsequently, he resigned from his official duties under the Ottoman government and his military post.

He chaired the historic conventions in Erzurum and Sivas in July and September of 1919.

The pivotal decisions made at these conventions stipulated that the nation would defend itself against occupation, a national parliament would be convened to form a temporary government, and no mandate or foreign protection would be accepted. Thanks to his leadership, the Turkish Grand National Assembly (TBMM) convened for the first time on April 23, 1920, in Ankara. Mustafa Kemal was elected head of both the parliament and the government. His first act was to announce to the world that the Turkish nation did not recognize the Treaty of Sèvres.

The advancement of the Greek army was halted during the First and Second Battles of İnönü in 1921. Under the command of Mustafa Kemal Paşa, the Turkish Army secured a decisive victory at the Battle of Sakarya. Following this 22-day struggle, the TBMM promoted him to the rank of "Marshal" and bestowed upon him the title of "Gazi" (War Veteran).

Final Victory and Reforms

The Turkish Army launched a

4 Eylül 1919 tarihlerinde Erzurum ve Sivas'ta düzenlenen kongrelere başkanlık etti.

Bu kongrelerde alınan en önemli kararlar; milletin ülkeyi işgale karşı savunacağı, ulusal bir meclis toplandıktan sonra geçici bir hükümet kurulacağı ve manda ya da himayenin asla kabul edilmeyeceği yönündeydi. Çabaları sayesinde, Türkiye Büyük Millet Meclisi (TBMM) ilk kez 23 Nisan 1920'de Ankara'da toplandı. Mustafa Kemal, Meclis ve Hükümet Başkanı seçildi; ilk icraatı ise Türk milletinin, Osmanlı Hükümeti ile İtilaf Devletleri arasında imzalanan Sevr Antlaşması'nı tanımadığını dünyaya ilan etmek oldu.

İtilaf Devletleri'nin yardımıyla İzmir'i işgal eden Yunan ordusunun ilerleyişi, 1921'deki I. ve II. İnönü Muharebeleri ile durduruldu ve Yunanlar şiddetle geri püskürtüldü. Başkomutan Mustafa Kemal Paşa liderliğindeki Türk Ordusu, Sakarya Meydan Muharebesi'nde büyük bir zafer kazandı. 22 gün 22 gece süren bu savaşta Yunan ordusu ağır kayıplar verdi. Bu zaferden dolayı TBMM tarafından Mustafa Kemal'e "Müşerref (Mareşal)" rütbesi ve "Gazi" unvanı verildi.

Zafer ve Devrimler

Türk Ordusu, düşman işgalini tamamen sona erdirmek amacıyla 26 Ağustos 1922'de karşı taarruza geçti. Yunan ordusu, Mustafa Kemal'in

major counter-attack on August 26, 1922. The Greek forces were largely defeated at the Battle of the Commander-in-Chief on August 30. The Turkish Army reached Izmir on September 9, 1922. Consequently, the Mudanya Armistice was signed on October 11, 1922, leading to the withdrawal of Allied forces.

Following the War of Independence, the modern Republic of Türkiye was established, and Mustafa Kemal was elected its first President on October 29, 1923. He served as President until his passing in 1938, making him the longest-serving President in Turkish history, having been elected for four consecutive terms.

On November 24, 1934, he was given the surname "Atatürk" by law, a name reserved exclusively for him.

Atatürk was not only a brilliant commander but also a visionary statesman through the reforms he implemented. Throughout his 57-year life, he worked tirelessly for the independence and happiness of his nation. The founder of the Republic of Türkiye passed away in Istanbul on November 10, 1938.

komutasındaki Başkomutanlık Meydan Muharebesi'nde (30 Ağustos 1922) büyük bir yenilgiye uğratıldı. Türk Ordusu bozguna uğrayan düşman kuvvetlerini takip ederek 9 Eylül 1922'de İzmir'e girdi. Sonuç olarak 11 Ekim 1922'de Mudanya Ateşkes Antlaşması imzalandı ve İtilaf Devletleri Türk topraklarından çekildi.

Kurtuluş Savaşı'nın ardından sadece modern Türkiye Cumhuriyeti kurulmakla kalmadı, aynı zamanda Mustafa Kemal 29 Ekim 1923'te yeni Cumhuriyet'in ilk Cumhurbaşkanı seçildi. 1938 yılındaki vefatına kadar Türkiye Cumhurbaşkanı olarak görev yapan Atatürk, bu seçkin makamı en uzun süre elinde tutan tek kişidir; üst üste dört dönem Cumhurbaşkanlığına seçilmiştir.

24 Kasım 1934 tarihinde çıkan 2587 sayılı kanunla Mustafa Kemal'e "Atatürk" soyadı verilmiş ve bu soyadını kullanma hakkı sadece kendisine hasredilmiştir.

Atatürk, sadece Kurtuluş Savaşı'nı başarıyla yöneten bir başkomutan değil, aynı zamanda gerçekleştirdiği devrimlerle dahi bir devlet adamıydı. 57 yıllık ömrünün büyük bir kısmında milletin mutluluğu ve vatanın bağımsızlığı için yorulmadan çalışmış, girdiği her mücadeleden zaferle çıkmıştır.

Türkiye Cumhuriyeti'nin kurucusu, unutulmaz ve cesur lider, 10 Kasım 1938'de İstanbul'da hayata gözlerini yummuştur.

Recep Tayyip ERDOĞAN
PRESIDENT / CUMHURBAŞKANI

36

With roots in Rize, Recep Tayyip Erdoğan was born in Istanbul on February 26, 1954. He graduated from Kasımpaşa Piyale Primary School in 1965 and completed his high school education at Istanbul Imam Hatip School (Religious Vocational High School) in 1973. Having succeeded in the necessary examinations for additional courses, Mr. Erdoğan received a diploma from Eyüp High School as well. He received his graduation diploma from Marmara University's Faculty of Economics and Administrative Sciences in 1981.

Since his youth, Mr. Erdoğan has chosen to lead a social life intertwining with politics. From 1969 to 1982, he was also actively interested in football which taught him the significance of team work and spirit in his younger years. These years coincided with the time when Mr. Erdoğan as an idealistic young man started to be interested in social and national problems and stepped into active politics.

Assuming active responsibilities at the students' branch of the National Turkish Students' Association during his high school and university years, Mr. Erdoğan was elected the Head of the MSP Beyoğlu Youth Branch in 1976 and he was also elected the Head of the MSP İstanbul Youth Branch in the same year. Holding this position until 1980, he served as consultant and senior executive in the private

sector during the September 12 era when the political parties were closed down.

Mr. Erdoğan returned to political activities with the Welfare Party, established in 1983, and he was elected the Beyoğlu District Head of the Welfare Party in 1984. In 1985, he was elected the İstanbul Provincial Head of the Welfare Party and in the same year he became a member of the Central Executive Board of the Welfare Party. Developing a new organizational structure which served as a model for other political parties during his tenure as İstanbul Provincial Head, Recep Tayyip Erdoğan carried out projects that aimed at urging the participation of women and youth in politics, thus taking important steps toward helping politics to be espoused and respected among the masses. This project won the Welfare Party a great success during the mayoral elections in Beyoğlu in 1989, serving as a good example for others in terms of studies at the party across the country.

As for the local elections held on March 27, 1994, Mr. Erdoğan was elected Mayor of Metropolitan İstanbul. During his term in office as Mayor, he produced correct diagnoses and solutions to the chronic problems of İstanbul, one of the world's most important metropolitan cities through his political abilities, the importance he attached to team work and successful management in human resources and financial issues. The water problem was overcome by laying hundreds of kilometers of new pipe line, the garbage problem was solved through the establishment of the most modern recycling facilities and the problem of air pollution ended with the natural gas projects developed during Erdoğan's term in office. As for traffic congestion and transportation deadlock, more than 50 bridges, passageways and freeways were constructed and many more projects which would guide the other administrations in the city were developed. Taking very stringent precautions for the correct exertion of the municipal resources and to prevent corruption, Mr. Erdoğan paid most of the debts of the İstanbul Municipality which he took over with its 2 billion dollars debt and he during his tenure achieved investments worth 4 billion dollars. Mr. Erdoğan, thus, accomplished a breakthrough in the municipal history and while his works served as good examples for other mayors, he won the confidence of the people.

On December 12, 1997, while addressing the public in Siirt, Recep Tayyip Erdoğan read a poem from a book, which was recommended by the National Education Ministry and published by a state agency,

and after that, he was sentenced to imprisonment for reading that poem. Thus, his term as mayor was ended.

Mr. Erdoğan, after serving 4 months in prison, established the Justice and Development Party (AK Party) on August 14, 2001 with his friends as a result of the insistent demand from the public and the developing democratic process and he was elected Founding General Chair of the AK Party by the Council of Founders. The favor of the nation made the AK Party a political movement which enjoyed the broadest public support in the country in the very first year of its establishment and made it the sole ruling party with a two-thirds majority at the Grand National Assembly of Türkiye at the end of the parliamentary elections held in 2002.

Mr. Erdoğan, who was not a candidate for MP during the elections on November 3, 2002 due to the court's decision against him at the time, joined the deputy renewal election held on March 9, 2003 in Siirt when the legal obstacle was lifted after the necessary legal regulations had been made. Taking 85 % of the votes cast in that election, he became a deputy from Siirt for the 22nd term.

Taking over the Prime Minister's office on March 15, 2003, Recep Tayyip Erdoğan implemented a number of reforms of crucial importance in the shortest time with his ideal of a brighter and constantly growing Türkiye. The country made great progress in democratization, transparency and the prevention of corruption. In parallel with this, inflation which had not been overcome and which had adversely affected the country's economy and the psychology of the people for decades was curbed. 6 zeros were removed from the Turkish currency, giving back the Turkish Lira its credit. The rate of the state's debt interests were lowered and a considerable increase in the national income per capita was achieved. An unprecedented number of dams, residential units, schools, roads, hospitals and power plants were constructed. All these affirmative developments were described by many foreign observers and Western leaders as a "Silent Revolution".

Recep Tayyip Erdoğan, in addition to his fruitful initiatives described as a turning point in the history of the country in its bid to join the EU, has taken significant steps toward the resolution of the Cyprus problem and toward the development of efficient relations with many countries through his rational foreign policy and intense series

of visits and contacts. The environment of stability established in the country, while moving the internal dynamics, has made Türkiye a pivotal country. Türkiye's volume of trade and political power have remarkably increased not only in its region but also in the international area.

Recep Tayyip Erdoğan, as the General Chairman of the AK Party, won a great victory during the parliamentary elections held on July 22, 2007 and established the 60th government of the Republic of Türkiye by winning 46.6 % of the votes and received the vote of confidence.

Mr. Erdoğan, winning 49 % of the votes, arose triumphant at the end of the parliamentary elections held on June 12, 2011 and established the 61st government.

Elected the 12th President on August 10, 2014, Recep Tayyip Erdoğan is also the first President of the Republic of Türkiye elected by popular vote.

Upon the approval of the constitutional amendment in a referendum on April 16 allowing the President to retain his/her party membership, President Recep Tayyip Erdoğan was elected at the 3rd Extraordinary Congress on May 21, 2017, as the Chairman of the AK Party, of which he is the founder.

Recep Tayyip Erdoğan, winning 52.59% of the votes, was re-elected President in the Presidential elections, held on June 24, 2018.

Mr. Erdoğan was sworn in on July 9, 2018 as the first President of the Presidential System of Government, which Türkiye switched to following the constitutional amendment that was adopted in the referendum on April 16, 2017.

Recep Tayyip Erdoğan, winning 52.18% of the votes, was re-elected President in the second round of the Presidential elections held on May 28, 2023.

Mr. Erdoğan was sworn in on June 3, 2023 at the Grand National Assembly of Türkiye, and an inauguration ceremony was held at the Presidential Complex afterwards.

Recep Tayyip Erdoğan is married with 4 children.

PARLIAMENT / MECLİS

ABOUT THE PARLIAMENT MECLİS HAKKINDA

History

The Grand National Assembly of Turkey (GNAT) is a unicameral legislature. It is the sole body given the legislative power by the Constitution. It was founded in Ankara on April 23, 1920 in the midst of the War of Independence. The Parliament served as the source of inspiration for the efforts of Mustafa Kemal Atatürk and his colleagues to found a new state out of the remnants of the Ottoman Empire in the aftermath of the World War I.

Composition of the Parliament

The Grand National Assembly of Turkey is composed of 600 deputies elected for a five-year term by the D'Hondt method, a party-list proportional representation system, from 87 electoral districts which represent the 81 administrative provinces of Turkey (Istanbul is divided into three electoral districts whereas Ankara and Izmir into two each, because of their large populations). To avoid a hung parliament and an excessive political fragmentation, only parties that win at least 10% of the votes cast in a parliamentary election gain the right to be represented in the Parliament. Political parties who have at least 20 deputies may form a political party group. Speaker of the Parliament The Speaker is elected by secret ballot among the members of the parliament. The election of the Speaker is held twice within a legislative term. The term of office of the Speaker, elected at the beginning of the legislative term, is two years. The duties of the Speaker are defined by the Rules of Procedure of the Grand National Assembly of Turkey.

The Bureau

The Bureau of the Grand National Assembly of Turkey has significant roles regarding the legislative activities and administrative matters. The Bureau is composed of the Speaker, four Vice-Speakers, five Quaestors and eight Secretaries and ensures the proportional representation of all political party groups.

The Plenary may increase the number of quaestors and secretaries upon a proposal of the Board of Spokespersons, if necessary. However, the number of vice-speakers cannot be more than four. Vice-speakers preside over the Plenary Sessions according to a weekly rotation. The Speaker presides over the Plenary Sessions if he deems it necessary. Two secretaries shall be present during the Plenary Sessions.

Tarih

Türkiye Büyük Millet Meclisi (TBMM), tek meclisli bir yasama organıdır. Anayasa tarafından yasama yetkisi verilen tek organdır. 23 Nisan 1920'de Kurtuluş Savaşı'nın ortasında Ankara'da kurulmuştur. Meclis, Mustafa Kemal Atatürk ve meslektaşlarının I. Dünya Savaşı'nın ardından Osmanlı İmparatorluğu'nun bakiyesinden yeni bir devlet kurma çabalarına ilham kaynağı olmuştur.

Meclisin Yapısı

Türkiye Büyük Millet Meclisi, Türkiye'nin 81 idari ilini temsil eden 87 seçim bölgesinden (İstanbul üç seçim bölgesine, Ankara ve İzmir ise büyük nüfusları nedeniyle iki seçim bölgesine ayrılmıştır) parti listesi orantılı temsil sistemi olan D'Hondt yöntemi ile beş yıllık bir süre için seçilen 600 milletvekilinden oluşur. Siyasi bölünmeyi önlemek için parlamento seçimlerinde kullanılan oyların en az %10'unu kazanan partiler Parlamento'da temsil edilme hakkını kazanır. En az 20 milletvekili olan siyasi partiler siyasi parti grubu oluşturabilir. Meclis Başkanı Meclis Başkanı, parlamento üyeleri arasında gizli oyla seçilir. Meclis Başkanı seçimi bir yasama dönemi içinde iki kez yapılır. Yasama döneminin başında seçilen Meclis Başkanının görev süresi iki yıldır. Meclis Başkanının görevleri Türkiye Büyük Millet Meclisi İçtüzüğü ile belirlenir.

Yönetim

Türkiye Büyük Millet Meclisi yönetimi, yasama faaliyetleri ve idari konularda önemli rollere sahiptir. Yönetim , Meclis Başkanı, dört Başkan Yardımcısı, beş temsilci ve sekiz Katipten oluşur ve tüm siyasi parti gruplarının orantılı temsilini sağlar.

Genel Kurul, gerektiğinde Sözcüler Kurulu'nun teklifi üzerine temsilci ve katip sayısını artırabilir. Ancak, başkan yardımcılarının sayısı dörtten fazla olamaz. Başkan yardımcıları, Genel Kurul Toplantılarına haftalık dönüşümlü olarak başkanlık ederler. Başkan, gerekli gördüğü takdirde Genel Kurul Toplantılarına başkanlık eder. Genel Kurul Toplantıları sırasında iki sekreter hazır bulunur.

DIPLOMACY ACADEMY

About The Academy

In 2010 it was restructured with the Act numbered 6004 on Organization and Duties of the Ministry of Foreign Affairs with the change of its name into “Diplomacy Academy of the Ministry of Foreign Affairs” as one of the supporting service units of the Ministry with expanded coverage of duties. DİPLOMASI AKADEMİSİ

Akademi Hakkında

22 Ocak 1968 tarihinde Dışişleri Akademisi adıyla kurulmuş; 24 Haziran 1994 tarih ve 4009 sayılı “Dışişleri Bakanlığı'nın Kuruluş ve Görevleri Hakkında Kanun” ile “Dışişleri Eğitim Merkezi” adını almış, 2010 yılında 6004 sayılı “Dışişleri Bakanlığı'nın Kuruluş ve Görevleri Hakkında Kanun” ile bugünkü ismi olan “Dışişleri Bakanlığı Diplomasi Akademisi Başkanlığı” haline dönüştürülerek görev alanı genişletilmiş ve Bakanlığın yardımcı hizmet birimlerinden birisi olarak yeniden yapılandırılmıştır. 10 Temmuz 2018 tarihli 1 Sayılı Cumhurbaşkanlığı Kararnamesi ile bu yapılanması korunmuştur.

Dışişleri Bakanlığı Diplomasi Akademisi, öncelikle Türkiye Cumhuriyeti'nin dış ilişkilerinin, Türk dış politikasının ve konsolosluk hizmetlerinin yürütülmesinde görev alan

Dışişleri Bakanlığı mensuplarının temel ve hazırlayıcı eğitimleri ve stajları ile hizmet içi eğitim faaliyetlerini planlayarak yürüten ve farklı ülkelerin kariyer diplomatlarına eğitim programları sunan bir eğitim kurumudur. Akademi, Bakanlık mensuplarının yurtdışındaki eğitim programlarına, yabancı dil ve mesleki amaçlı kurslara ve seminerlere katılım faaliyetlerini planlamak ve yürütmekle de görevlidir. Diploması Akademisi ayrıca, Türkiye'nin yurtdışındaki diplomatik temsilciliklerine atanan diğer kamu kurum ve kuruluşları personelinin eğitim görevini de yerine getirmektedir.

International Training Programs

In addition to Turkish diplomats, the Academy also organizes bilateral and multilateral programs for foreign diplomats.

“International Junior Diplomats Training Program” is the Academy’s flagship international undertaking. Ongoing since 1992, the Program has been steadily growing both in content and number of participants.

Memoranda of Understanding (MoU) signed with other countries form the legal framework for bilateral training programs. Bilaterals are designed based on the needs of the partner countries, and usually include diplomacy and protocol topics.

Uluslararası Eğitim Programları

Akademimiz tarafından Türk diplomatlara düzenlenen eğitimlerin yanısıra yabancı genç diplomatlar için de ikili ve çok taraflı eğitim programları düzenlenmektedir.

Çok kültürlü bir ortamda karşılıklı öğrenmeyi hedefleyen ve 1992 yılından bu yana gerçekleştirilmekte olan “Uluslararası Genç Diplomatlar Eğitim Programı” gerek içeriği gerek davetli sayısı bakımından giderek daha da genişlemekte ve zenginleşmektedir.

Akademimizce çeşitli ülkelerle imzalanan İşbirliği Mutabakat Muhtıraları ise ikili eğitim programları için bir çerçeve teşkil etmekte, işbirliği tesis edilen ülkeler için karşılıklı ihtiyaçlar temelinde genel dış politika ve protokol konularına yoğunlaşan eğitimler tertiplenmektedir.

International Junior Diplomats Training Programs

“International Junior Diplomats Training Program” of the Diplomacy Academy is a significant milestone of the practical means of Türkiye’s inclusive, human-oriented diplomacy. This comprehensive training program is organized annually by the Diplomacy Academy gathering together junior diplomats coming from various countries all over the world. It constitutes an important forum for international junior diplomats in a multicultural setting and has a significant function in terms of enhancing the global presence, prestige and public diplomacy of Türkiye. In that regard, the Program is an important initiative depicting the multi-faceted aspects of Türkiye in terms of its civilization, history, art, music, literature, foreign policy and diplomacy.

The history of the training program dates back to 1992 when it was initiated with the purpose of providing support to the newly independent Republics of the Central Asia and the Caucasus. Over time the Program has extended its content and geographical scope to different developing countries around the world. The Training Program has gradually encompassed 5 continents and 135 countries welcoming 1255 junior diplomats

under the age of 35 since its inception.

Junior diplomats from the Balkans, East Europe, Middle East, Central Asia and the Caucasus, Latin America, South East Asia and Africa meet every year for a month in Türkiye within the context of this Program.

The training, by combining academic perspectives with practical issues and insights in a multinational setting and at the same time offering opportunities to discover the culture, history and art of Türkiye, can be regarded as unique in this sense.

The program covers disciplines of foreign policy, diplomacy, politics, society, economics, history, art and literature. With a specific focus on Türkiye in these fields of study, the participants also have the opportunity to take lectures on the current trends of world politics, society and economics as well as the global issues within the context of conflict resolution and mediation, and environmental diplomacy. The lectures are given by academics from prominent universities, experts from think-tanks/ NGOs and high level bureaucrats. In addition to these lectures, briefings are also given by the Turkish diplomats concerning Türkiye’s bilateral relations in a regional and global perspective in order to give an overview of Turkish foreign policy in practical terms. In that respect, the participants

of the Program are trained based not solely on academic terms but also on practical terms, which would give them an insight to see Türkiye's perspective on several foreign policy issues.

The Program provides a multinational setting for a free and dynamic discussion and interaction among the participants.

Within this wide-ranging framework of the Training Program, the contributions of international participants are not left aside. Each representative of the participating countries presents his/her country report. This improves the professional capabilities of junior diplomats, and also enhances the interaction among the participants. This interactive mode of the Training Program has opened new channels for life-long professional and personal ties and networks among junior diplomats, which on the whole is very much appreciated by the participants as well. This intercultural learning has made the sessions of country reports the most vivid and joyful parts of the Training Program.

The intercultural academic training is facilitated with visits paid to various public institutions, think tanks, civil society organizations and universities contributing to different elements of foreign policy making process such as the Turkish Grand National

Assembly, Prime Ministry Public Diplomacy Coordination Office, Turkish International Cooperation and Coordination Agency (TIKA), Presidency for Turks Abroad and Related Communities, Yunus Emre Institute and Foreign Economic Relations Board (DEİK). Through this way, junior diplomats not only figure out the basic state structure of Türkiye but also have an overview of the basic mechanisms of Türkiye's multi-faceted foreign policy.

Türkiye, which is a cradle of civilizations located in a unique geographical location, has a profound historical and cultural legacy to discover for junior diplomats. In that regard, historical, cultural and social visits to different cities and regions in Türkiye such as Cappadocia, Konya and Istanbul are essential parts of the Training Program. Through this way, the participants have the opportunity to get first-hand information about the deep historical and cultural background of Türkiye and also have social and economic field experience through exploring the different cities of Türkiye.

Thanks to the Program, junior diplomats have the opportunity to improve their intellectual and professional capabilities. They also create a good network with their colleagues from different countries. International Junior Diplomats Training Program, which has gradually expanded its scope and

content, has become a multi-faceted initiative of the Turkish Ministry of Foreign Affairs. It is one of the best expressions of the Turkish diplomacy with a global reach. In this multicultural platform, junior diplomats learn from and understand each other, set a common ground for further international cooperation and intercultural dialogue and establish long lasting relationships among each other for a much more peaceful global environment.

Foreign Government Scholarships

Foreign Government Scholarships are awarded to Turkish citizens by foreign governments under bilateral agreements for research, undergraduate, graduate, doctoral, and language courses.

While scholarship conditions vary from country to country, they generally cover the applicant's expenses such as education, accommodation, health, and monthly stipend. All other expenses (round-trip travel, visa, insurance, etc.) are the responsibility of the applicants.

The Ministry of National Education does not provide any scholarships or other payments, and applicants are not obligated to any compulsory service after graduation.

The Ministry of National Education selects candidates through interviews, and the names of the winning applicants, both primary and reserve, are communicated to the relevant country. The final decision regarding the acceptance of applicants rests with the relevant country.

Information regarding the equivalence of diplomas obtained abroad must be obtained from the Council of Higher Education (YÖK) in advance. The responsibility for this lies with the applicants. Scholarships are valid for the academic term for which they are awarded.

ANKARA

VIEW OF THE CITY
KENTE BAKIŞ

is thought that Ankara and its surroundings were captured by the Hittites and that they settled in the region. A Hittite settlement was discovered in Bitik near the Mürted plain and an excavation revealed a settlement from the old Hittite period. In addition, the ruins of Gavurkale, 60 km southwest of Ankara, also appear as traces of the Hittite period

Ankara has been a geography where different civilizations have ruled since the early ages and a city that has been the scene of continuous settlement... Archaeological findings as a result of research conducted in the area covered by today's Ankara city and its surroundings have been accepted as the cultural values of the collective life that continued in the region starting from the Paleolithic period, throughout the Neolithic and Copper Ages. Therefore, the settled order of the city dates back to very old times, but despite all the archaeological findings, it is not known for sure who founded the city and when.

It is thought that Ankara and its surroundings were captured by the Hittites and that they settled in the region. A Hittite settlement was discovered in Bitik near the Mürted plain and an excavation revealed a settlement from the old Hittite period. In addition, the ruins of Gavurkale, 60 km southwest of Ankara, also appear as traces of the Hittite period.

After the Hittites, the Phrygians dominated the region. It is estimated that the first important settlement in the city was during the Phrygian period. In ancient sources and legends, the Phrygian King Midas is considered the founder of Ankara. The Phrygians gave the region the name «Ankyra», meaning «ship anchor». Gordion, the capital of the Phrygians, was located in the Yassıhöyük Village within the borders of today's Polatlı district.

After the Phrygians, Ankara and its surroundings were taken over

by the Lydians. After the Lydians, the Persians dominated the region. Although our information about «Ankyra» during the Lydian and Persian periods is limited, information about the entire period shows the importance of Ankara. The «King's Road» built during the reign of the Persian King Darius I, passing through Ankara, made the city one of the important centers in terms of trade and military.

As a result of the expeditions of Alexander the Great, King of Macedonia, to the East, the Macedonians established dominance in the region after the Persians. Sources state that Alexander came from the city of Gordion and resided in the region for a while.

In the 3rd century BC, the Galatians settled in the region. Ankyra became the capital of the Tectosags, a tribe of Galatian raiders.

When Roman Emperor Augustus took Galatia under Roman rule in 25 BC, Ancyra became the capital of the Roman province of Galatia. In the process, the region became an important military base.

After the division of the Roman Empire into two, the city remained within the borders of the Eastern Roman Empire. Ankara maintained its military and logistical importance during the Byzantine period. Ankara, which was the scene of many struggles for domination during the Byzantine period, remained under Byzantine rule until 1073, despite various attempts to establish dominance.

With the victory of Seljuk ruler Alp Arslan in the Battle of Malazgirt in 1071, the mass settlement of the Turks in Anatolia began. The Seljuks conquered Ankara in 1073, two years after the Battle of Malazgirt. After Malazgirt, the city witnessed struggles for dominance between the Seljuks, Danishmends and Byzantines many times. The period when Sultan Alaeddin Keykubat ruled was the brightest period of the Seljuks and the city witnessed major construction works during this period.

Following the Mongol invasion of Anatolia, the city came under the rule of the Ilkhanate in the early 14th century. Before passing to the Ottomans, the city was governed by the Ahi tribe with a local administration for a while. They played an important role in the Turkification process, which was interrupted by the power struggles between the Seljuk Beys and the Crusades, and contributed to the Turkification of Anatolia, especially Ankara.

Finally, Ankara was incorporated into Ottoman territory and continued to function as a border city during this period.

The name of the city, «Ankyra», appeared in the forms «Engürü» and «Angora» in Islamic times, and the city was the scene of the Battle of Ankara in Çubuk Plain in 1402, and Ankara remained under the siege of Timur for a while. After Timur left Anatolia, Mehmet Çelebi declared his sultanate at the end of the Interregnum, and took Ankara back under Ottoman rule.

After the Balkan War and World War I, the Ottoman Empire, which had lost power, saw it as dangerous for its center to remain in Istanbul, and the issue of moving the capital to another city in Anatolia was on the agenda. On December 27, 1919, Mustafa Kemal Pasha and the Representative Committee of the Society for the Defense of Rights came to Ankara and announced to all deputies with a circular that the meeting would be held in Ankara.

The Turkish Grand National Assembly, established on April 23, 1920, declared Ankara as the center of government, and Ankara became a center from which the War of Independence was administered. With the law enacted on October 13, 1923, Ankara was officially declared the new capital of Türkiye. Thus, the way for the city's current development was paved.

In Ankara, the symbolic city of the War of Independence, construction works were rapidly initiated after the declaration of the Republic on October 29, 1923. This beautiful and ancient city, which has a deep-rooted history and a rich cultural heritage and has hosted many civilizations, gained a newer and different appearance with the first construction works, and the first steps of its development as a city were taken.

April 23 National Sovereignty and Children's Day

On April 23, 1920, Mustafa Kemal Atatürk, as a supporter of the resistance movement he launched in Anatolia, inaugurated the Grand National Assembly of Türkiye (GNAT), representing the independence of the Turkish nation and the will of the people. Atatürk dedicated this day to children in Türkiye and around the world as he regarded children as the future's legacy.

May 19 Commemoration of Atatürk, Youth and Sports Day

May 19, 1919, is one of the significant dates in Turkish history. On this day, Atatürk departed Istanbul for Samsun, which is considered the beginning of the Turkish War of Independence. This day marked the beginning of the organisation of the Turkish resistance in Anatolia, which was essential for defending the homeland. May 19 is considered the first spark of the Turkish Independence Victory and is observed every year as the Commemoration of Atatürk, Youth and Sports Day.

August 30 Victory Day

The biggest and most glorious battle of the War of Independence, known as the Battle of the Commander-in-Chief, won by Turkish soldiers bravely with heroism, ended with victory on August 30, 1922. This battle, which ended the War of Independence with victory, is celebrated with ceremonies every year as Victory Day.

23 Nisan Ulusal Egemenlik ve Çocuk Bayramı

Mustafa Kemal Atatürk, Anadolu'da başlattığı direnişin destekleyicisi olarak Türk milletinin bağımsızlığını ve milletin iradesini temsilen 23 Nisan 1920'de Türkiye Büyük Millet Meclisini (TBMM) açmıştır. Atatürk, bu günü geleceğin mirası olarak gördüğü Türk ve dünya çocuklarına armağan etmiştir.

19 Mayıs Atatürk'ü Anma Gençlik ve Spor Bayramı

Türk tarihinde önemli günlerden biri de 19 Mayıs 1919'dur. Atatürk'ün İstanbul'dan yola çıkarak Samsun'a ayak bastığı bu gün Türk Kurtuluş Savaşı'nın başlangıcı olarak kabul edilmektedir. Bu tarihten itibaren vatanın savunmasında gerekli olan Türk direnişi Anadolu'da organize edilmeye başlanmıştır. Türk Kurtuluş Zaferinin ilk kıvılcımı kabul edilen 19 Mayıs günü her yıl Gençlik ve Spor Bayramı olarak kutlanmaktadır.

30 Ağustos Zafer Bayramı

Kurtuluş Savaşı'nda Türk askerinin kahramanlıkları kazandığı en büyük ve şanlı savaş olan Başkomutanlık Meydan Muharebesi 30 Ağustos 1922'de zaferle sonuçlanmıştır. Kurtuluş Savaşı'nı zaferle nihayete erdiren bu savaş, her yıl Zafer Bayramı olarak törenlerle kutlanmaktadır.

October 29 Republic Day

On October 29, 1923, the form of government of the newly founded modern Türkiye following the War of Independence was declared to be a Republic. As the founding anniversary of our Republic, October 29 is marked annually with ceremonies.

July 15 Democracy and National Unity Day

On July 15, 2016, the coup attempt of the treacherous terrorist organisation FETO, which was organised by infiltrating state and military organisations in Türkiye, was defeated by the strong will of the people, the resistance of the Turkish Armed Forces (TSK), and the police. July 15, which represents the national will and the power of democracy, has been designated Democracy and National Unity Day.

In accordance with its meaning, national holidays are usually celebrated joyfully, and august martyrs are commemorated. On these days, parades, corteges, torchlight processions, folk dance performances, as well as other performances and concerts are held.

In Türkiye, where nearly 90 per cent of the population is Muslim, two religious holidays are observed. These are the Eid-al-Fitr and Eid al-Adha.

Eid-al-Fitr

Eid-al-Fitr is a holiday celebrating

29 Ekim Cumhuriyet Bayramı

Kurtuluş Savaşı'nın ardından yeni kurulan modern Türkiye'nin yönetim biçimi 29 Ekim 1923 tarihinde Cumhuriyet olarak ilan edilmiştir. Her yıl 29 Ekim Cumhuriyetimizin kuruluş yıl dönümü olması nedeniyle törenlerle kutlanmaktadır.

15 Temmuz Demokrasi ve Milli Birlik Günü

15 Temmuz 2016 tarihinde ülkede devlet ve asker teşkilatlarının içerisine sızarak örgütlenen hain terör örgütü FETÖ'nün darbe girişimi; halkın yüksek iradesi, Türk Silahlı Kuvvetleri (TSK) ve polis teşkilatının direnişiyle bastırılmıştır. Millet iradesi ve demokrasinin gücünün göstergesi olan 15 Temmuz, Demokrasi ve Milli Birlik Günü olarak ilan edilmiştir.

Millî bayramlar genelde; muhtevasına uygun şekilde şenlik havası içerisinde kutlanmaktadır ve aziz şehitler anılmaktadır. Bu günlerde; resmigeçitler, kortejler, fener alayları, halk oyunları gösterileri, çeşitli temsiller ve konserler düzenlenmektedir.

Nüfusunun %90'a yakını Müslümanların oluşturduğu Türkiye'de iki dini bayram kutlanmaktadır. Bu bayramlar Ramazan ve Kurban Bayramlarıdır.

the performance of the fasting duty. Some preparations are made on the eve of Eid al-Fitr. Delicious food and desserts are prepared. On the first day, everyone dresses up, and new clothes are purchased especially for children. Men perform Salat-al-Eid in the mosque on the first day of Eid. The feast of the congregation begins upon exchanging good wishes at the conclusion of the prayer. The Ramadan Feast lasts three days. People celebrate each other's holidays by paying visits to their acquaintances, friends, and relatives during the holiday season. Cologne, sweets, and candies are typically served during these visits. Cemetery visits begin on the eve. Some elders reward children who kiss their hands with gifts or pocket money. Small groups of children go door-to-door collecting candies. As a result, Eid-al-Fitr is also known as Candy Feast, particularly among children.

Eid al-Adha

Eid-al-Adha traditions are generally similar to those of Eid-al-Fitr, with the exception that people whose economic situation exceeds a certain level within the framework of religious principles sacrifice an animal for God on this holiday. Those who sacrifice an animal must provide meat from the sacrificed animal to those who cannot. There is an understanding of closeness to God and self-sacrifice to the people in the spirit of this worship. Sacrifice indicates a Muslim's willingness to give up his entire existence in the service of Allah when necessary.

Ramazan Bayramı

Ramazan Bayramı, oruç vazifesini eda etmenin şerefine kutlanan bir bayramdır. Ramazan Bayramı arifesinde birtakım hazırlıklar yapılır. Güzel yemekler ve tatlılar yapılır. Bayram günü herkes en güzel kıyafetlerini giyer, özellikle çocuklara yeni kıyafetler alınır. Bayramın birinci günü, erkekler camide bayram namazı kılar. Namaz bitiminde cemaatin bayramlaşması ile bayram başlamış olur. Ramazan Bayramı üç gün sürmektedir. Bayram boyunca insanlar eş, dost ve akraba ziyaretleriyle birbirlerinin bayramını kutlar. Bu ziyaretler esnasında genellikle kolonya, tatlı ve şekerlemeler ikram edilir. Arife gününden itibaren mezarlık ziyaretleri yapılır. Bazı büyükler ellerini öpen çocuklara hediye veya harçlık verir. Çocuklar ufak gruplar hâlinde kapı kapı dolaşarak şekerleme toplar. Bu sebeple Ramazan Bayramı özellikle çocuklar arasında Şeker Bayramı olarak da adlandırılır.

Kurban Bayramı

Kurban Bayramı'ndaki gelenekler genel itibarıyla Ramazan Bayramı'na benzer olup farklı olan kısım bu bayramda ekonomik durumu dini esaslar çerçevesinde belirli bir seviyenin üzerinde olan kişilerin kurban kesmesidir. Kurban kesen kişiler, kesemeyen kişilere kurban eti vermekle yükümlüdür. Bu ibadetin ruhunda Hakk'a yakınlık ve halka fedakârlıkta bulunma anlayışı vardır. Kurban, bir Müslümanın bütün varlığını, gerektiğinde Allah yolunda feda etmeye hazır olduğunun bir nişanesidir.

Interview

“From 150 Years of Friendship to Strategic Partnership:

A New Era Based on Technology and
Security Between Guatemala and Türkiye”

Eduardo HERNANDEZ

Republic of Guatemala
Embassy

I am a career diplomat. I began my career in 2005, right after finishing university in Moscow. At that time, my goal was to start a dynamic where I could implement many of the ideas I had learned during my time in Russia and bring some of that experience back to my country.

I started as a Third Secretary in the Subdirectorate for Europe, specifically focusing on Eastern European countries, which at that time were not given much importance within Guatemala's Ministry of Foreign Affairs. However, in 2006 I was transferred to Mexico, where I was able to learn a great deal about Guatemala's reality—especially regarding issues related to our shared border with that country, as well as matters such as irregular migration, trade, and other elements that naturally arise in relations with neighboring countries. It is in these contexts that one learns a much closer and more dynamic form of diplomacy.

Those six years were a period of intense learning, during which I believe I was able to strengthen and update my skills across many areas relevant to Guatemala's interests. Starting my diplomatic career in Mexico was, without a doubt, a deeply formative experience.

Ben kariyer diplomatıyım. Kariyerime 2005 yılında, Moskova'daki üniversite eğitimimi tamamladıktan hemen sonra başladım. O dönemde hedefim, Rusya'daki eğitimim sırasında edindiğim fikirleri hayata geçirebileceğim dinamik bir alan oluşturmak ve bu deneyimi ülkeme taşımaktı.

Avrupa Alt Müdürlüğü'nde Üçüncü Kâtip olarak göreve başladım ve özellikle o dönemde Guatemala Dışişleri Bakanlığı'nda çok fazla önem verilmeyen Doğu Avrupa ülkelerine odaklandım. Ancak 2006 yılında Meksika'ya atandım ve burada Guatemala'nın gerçekliği hakkında—özellikle ortak sınırimızla ilgili konular, düzensiz göç, ticaret ve komşu ülkelerle ilişkilerde doğal olarak ortaya çıkan diğer meseleler hakkında—çok şey öğrenme fırsatı buldum. Diploması, işte bu ortamlarda çok daha yakın ve dinamik bir şekilde öğreniliyor.

Bu altı yıl yoğun bir öğrenme süreciydi ve Guatemala'nın çıkarları açısından önemli birçok alanda kendimi geliştirdiğime inanıyorum. Diplomatik kariyerime Meksika'da başlamak, şüphesiz benim için son derece şekillendirici bir deneyim oldu.

After that, I was transferred to Russia due to my knowledge of the language, and later I returned to Guatemala to serve as Chief of Staff to the Minister of Foreign Affairs. These were also very interesting times, as each post and each responsibility brings valuable lessons.

I later left the Ministry of Foreign Affairs for a short period and worked at the Ministry of Labor, focusing on temporary worker programs—something I did not know at the time would later prove very useful. I was then called back to the Ministry to serve as Vice Minister for Migration and Consular Affairs,

Daha sonra dil bilgim nedeniyle Rusya'ya atandım ve ardından Guatemala'ya dönerek Dışişleri Bakanı'nın Özel Kalem Müdürü olarak görev yaptım. Her görev ve sorumluluk, beraberinde önemli dersler getiriyor. Daha sonra kısa bir süreliğine Dışişleri Bakanlığı'ndan ayrılarak Çalışma Bakanlığı'nda geçici işçi programları üzerine çalıştım—o zaman bunun ileride ne kadar faydalı olacağını bilmiyordum. Ardından tekrar Bakanlığa çağrılarak Göç ve Konsolosluk İşlerinden Sorumlu Bakan Yardımcısı olarak görev yaptım. Bu görevde Guatemala için son derece önemli olan

where I was able to closely engage with migration issues, which are extremely important for Guatemala. This is an area in which we work very intensively and continuously with countries in the region, including Central America, as well as Mexico, the United States, and Canada.

Afterward, I once again left the Ministry and began working at the Guatemalan Migration Institute, where we promoted modernization and technological updates—experience that is now proving very valuable, especially as we see how technology transfer can play a key role. In this regard, Türkiye represents an important partner.

Later, I was once again called back to the Ministry, and I personally requested to be posted to Türkiye. It has been one of the most valuable learning experiences of my career. One never stops learning, and Türkiye has much to offer us in areas I will address later, particularly in terms of its technological development, which is of great interest to us. The first time I came into contact with Turkey was not through a visit, but rather during my university years, when I had two Turkish classmates who taught me a few words. At the time, I had no idea that I would one day come here, but that was the beginning of my interest in the

göç konularıyla yakından ilgilendim. Bu alanda Orta Amerika ülkeleri, Meksika, ABD ve Kanada ile yoğun iş birliği yürütüyoruz.

Sonrasında tekrar Bakanlıktan ayrılarak Guatemala Göç Enstitüsü'nde çalışmaya başladım ve burada modernizasyon ve teknolojik dönüşüm projelerini yürüttük. Bu deneyim bugün özellikle teknoloji transferinin önemini gördüğümüz bu dönemde büyük değer taşıyor. Bu bağlamda Türkiye önemli bir ortaktır.

language. Today, I am studying at the Yunus Emre Institute twice a week, and I plan to leave this country speaking at least some Turkish.

Moreover, as is often understood in diplomacy, one never truly finishes learning. The day I leave Turkey will not mark the end of my relationship with this country—that much I know. I will continue learning until I reach a much more proficient level in Turkish.

Guatemala-Türkiye Diplomatic Relations

Relations between Guatemala and Türkiye have been developing effectively since the opening of embassies in both countries. In the case of Guatemala, we opened our embassy in 2017, and Türkiye later reciprocated this diplomatic gesture. Since then, we have been working on a very effective agenda in various areas, many of them aligned with the interests we share and have identified in this country. Although we established diplomatic relations 150 years ago—an occasion we appropriately celebrated in July 2024—it is since 2017 that we have been implementing a diplomatic agenda based on friendship, cooperation, and, of course, on identifying the strong sectors that Turkey has to offer.

During my tenure, we have identified very specific areas, such as military cooperation. In 2025, we succeeded in signing a framework agreement on military cooperation between Guatemala and Türkiye, which opens up many alternatives that had not previously been considered in Guatemala. This also supports Guatemala's efforts to build a safer country, and consequently a safer region. While we face different kinds of challenges compared to those here, the transfer of advanced technology at a reasonable cost is part of the formula we are seeking to implement.

In the commercial sphere, we are pleased to report that as of 2025, 1% of Guatemala's coffee

çağrıldım ve özellikle Türkiye'ye atanmayı talep ettim. Bu görev, kariyerimin en değerli öğrenme deneyimlerinden biri oldu. İnsan öğrenmeyi asla bırakmıyor ve Türkiye'nin özellikle teknolojik gelişim açısından bize sunacağı çok şey var.

Türkiye ile ilk temasım bir ziyaretle değil, üniversite yıllarımda tanıştığım iki Türk arkadaşım sayesinde oldu. Onlar bana birkaç Türkçe kelime öğretmişti. O zaman bir gün buraya geleceğimi bilmiyordum, ama bu benim dil öğrenme ilgimin başlangıcı oldu. Bugün Yunus Emre Enstitüsü'nde haftada iki gün Türkçe öğreniyorum ve buradan

exports are being sold to Türkiye. This is a growing sector that has been doubling in recent years, and we expect that 2026 will be no exception. We are working strongly on this flagship product—coffee—as a way to open doors for other goods, not only in Turkey. We also view Turkey as a gateway to many other countries, including those in the Balkans, the Middle East, and the Turkic world.

We are also working in other areas, such as culture. In 2024, we organized the first concert in Ankara featuring Guatemala's national instrument, the marimba, contributing to greater cultural diversity not only in the city but also in broader contexts. Last year, we brought two pianists who performed two concerts, one in Ankara and another in Istanbul. These were very well received, featuring both Guatemalan and Turkish pieces, and represented a very positive experience for us. Likewise, we are seeing an increasing number of Guatemalan students in Turkish universities, which gives us great satisfaction. This is something we are promoting in coordination with the Embassy of Türkiye in Guatemala, as we aim to strengthen interaction. We understand that encouraging more students to come will result in more Guatemalans speaking Turkish in the future,

Guatemala-Türkiye Diplomatik İlişkileri

Guatemala ve Türkiye arasındaki ilişkiler, karşılıklı büyükelçiliklerin açılmasıyla birlikte etkili bir şekilde gelişmeye başlamıştır. Guatemala 2017 yılında büyükelçiliğini açmış, Türkiye de buna karşılık vermiştir. O tarihten bu yana ortak çıkarlar doğrultusunda güçlü bir diplomatik gündem yürütüyoruz. Diplomatik ilişkilerimiz 150 yıl önce kurulmuş olsa da (Temmuz 2024'te bunu kutladık), asıl aktif iş birliği 2017'den sonra hız kazanmıştır.

Görev sürem boyunca özellikle askerî iş birliği gibi alanlarda somut ilerlemeler kaydettik.

2025 yılında iki ülke arasında askerî iş birliği çerçeve anlaşması imzalandı. Bu, Guatemala için yeni

which will greatly support deeper engagement between our countries moving forward.

Culture and Society

In a few words, Guatemalan culture is multicultural and multilingual. It cannot be fully defined in just a few words, but I can say this: it is a country of 108,000 square kilometers located in the tropics, where the cultures of Indigenous peoples converge—with 22 Mayan languages, as well as Xinca and Garifuna, the latter with roots in the Caribbean and Africa—together with the Spanish language that unites us all.

Ticaret alanında ise 2025 itibarıyla Guatemala kahvesinin %1'i Türkiye'ye ihraç edilmektedir.

Bu oran hızla artmaktadır ve 2026'da da büyümesini bekliyoruz. Kahve, diğer ürünlerin de önünü açacak bir lokomotif ürün olarak görülmektedir. Türkiye'yi aynı zamanda Balkanlar, Orta Doğu ve Türk dünyasına açılan bir kapı olarak değerlendiriyoruz.

respects and that has much to offer to visitors. In that sense, we can learn a great deal from Turkish hospitality. We can learn how, through one of the pioneering countries in this field, we can also transfer those kinds of experiences to our own country, in order to foster greater interaction.

As for Turkish cuisine, I honestly wouldn't know where to begin. I really enjoy soups, I like kelepacha, I enjoy meats, and the different ways they are prepared. I also really like the appetizers served here, as well as the Turkish breakfast, which I believe is one of the hidden gems of this country. These are all things I have learned to appreciate, and some I have even learned to prepare myself. And of course, when the day comes for me to leave, I will take these recipes with me so I can recreate them wherever I go.

Daily Life

Diplomatic life in Ankara is very dynamic. Many times, if one were to attend every event they are invited to, there would hardly be any time left for office work. The fact that most countries in the world are accredited in Ankara represents a great opportunity and a valuable diplomatic experience, as it provides access to many countries that, at least in Latin America, one would not normally interact with.

As for Turkish cuisine, i honestly wouldn't know where to begin. i really enjoy soups, i like kelepacha, i enjoy meats, and the different ways they are prepared. I also really like the appetizers served here, as well as the Turkish breakfast, which i believe is one of the hidden gems of this country.

Therefore, we have to be very selective about which events we attend and which we do not, and of course, set clear priorities. For me, my priority is Türkiye. Other countries are, of course, also of interest, and from here—due to budgetary considerations—we cover additional countries. However, having our embassy here naturally places Turkey at the center of our focus.

During my time here, I also take the opportunity to get to know the country more deeply. Given its unique climate, in winter I make the most of it by practicing winter sports—usually trying to go skiing as often as possible. I am also very passionate about archaeology, and although the historical periods studied here differ from those in Guatemala, Türkiye truly has a great deal to offer in this field. For me, it is fascinating to be in this country and to experience history firsthand.

In the summer, of course, I enjoy visiting the sea and practicing water sports. I particularly enjoy diving, running, and staying active in general. This is something I have been able to develop even more here than before. Ankara and Turkey have truly had a very positive influence on me.

Education, Youth, and Future Perspectives

Youth has always been, and

continues to be, the future of everything. In the context of relations between two countries, of course, they play a crucial role. As I mentioned earlier, engaging young people can lead to greater interaction and a deeper understanding when they identify with one culture or another. This gives us a better opportunity to leverage soft power in a way that fosters understanding at all levels—not just diplomatically, but truly at every level.

Since I arrived, we have supported the scholarship programs promoted by Türkiye, and we are doing our part to ensure that more and more students participate in these opportunities.

A Human Perspective on Diplomacy

Diplomacy as a bridge between states and between people truly exists. I hold that view, and it really is the foundation of something, which, over time, we realize we have more similarities than differences. This is one of the key roles that diplomats from many countries perform: identifying similarities in cuisine, architecture, art, ways of thinking, and behavior. By doing so, we stop seeing each other as strangers, and instead, we see ourselves as part of a larger family. This opens up countless

Kültürel alanda da çalışmalar yürütüyoruz. 2024 yılında Ankara'da Guatemala'nın ulusal enstrümanı olan marimba ile bir konser düzenledik. Ayrıca geçen yıl Ankara ve İstanbul'da iki piyanist konser verdi. Bu etkinlikler büyük ilgi gördü.

Türk üniversitelerinde eğitim gören Guatemalalı öğrenci sayısı da artmaktadır. Bu, iki ülke arasında kültürel bağların güçlenmesi açısından büyük önem taşımaktadır.

Kültür ve Toplum

Guatemala kültürü çok kültürlü ve çok dilli bir yapıya sahiptir. 108.000 km² büyüklüğünde tropikal bir ülkedir. 22 Maya dili, ayrıca Xinca ve Garifuna dilleri ile İspanyolca bir arada var olur.

Bu çeşitlilik ülkeyi son derece ilgi çekici kılar. Türkiye'nin misafirperverliğinden öğreneceğimiz çok şey var. Türk mutfağına gelince... Nereden başlayacağımı bilemiyorum. Çorbaları, kelepçayı, et yemeklerini ve mezeleri çok seviyorum. Türk kahvaltısının ise bu ülkenin gizli hazinelerinden biri olduğunu düşünüyorum.

Observations on Türkiye

In my diplomatic career, which now spans 20 years, I could mention many experiences, but the most significant are, of course, personal: getting to know customs, lifestyles, and having the opportunity to broaden my mind. This includes understanding attitudes that we might not fully grasp at first, but whose meaning becomes clear over time. One example here in Türkiye is when water is thrown on someone when they are leaving—a practice I find fascinating. It's a beautiful way of saying, "We will miss you, we want you to come back." Experiences like this are deeply moving because they allow one to feel a greater connection to the place. I cherish these memories in my mind and heart, knowing they will stay with me always.

I have visited Istanbul, Ankara, Izmir, Antalya, Rize, Cappadocia, Aksaray, Marmaris, Malatya, Konya, Çanakkale, Kayseri, and Tokat, as well as many towns around Ankara, such as Beypazari. I try to drive myself around the country as often as possible, as I believe it is the best way to get to know it. There are many more cities to explore, and I seize every opportunity to visit them. Diplomacy here also

oldukça yoğundur. Tüm davetlere katılmak neredeyse imkânsızdır. Ancak bu durum, farklı ülkelerle temas kurmak açısından büyük fırsatlar sunar.

Benim önceliğim Türkiye'dir. Bunun dışında farklı ülkelerle de temaslarımız sürmektedir. Boş zamanlarımda ülkeyi keşfetmeye çalışıyorum. Kışın kayak yapıyorum, yazın deniz ve su sporlarıyla ilgileniyorum. Arkeolojiye büyük ilgi duyuyorum ve Türkiye bu alanda çok zengin.

Eğitim, Gençlik ve Gelecek Perspektifi

Gençlik her zaman gelecektir. İki ülke arasındaki ilişkilerde de önemli bir rol oynar. Öğrenci değişimleri ve burs programları bu bağları güçlendirmektedir.

Diplomasiye İnsani Bir Bakış

Diplomasi, insanlar ve devletler arasında bir köprüdür.

Zamanla farklılıklardan çok benzerliklerimizin olduğunu fark ederiz. Bu da ülkeler arasında daha güçlü bağlar kurulmasını sağlar.

Türkiye Üzerine Gözlemler

emphasizes local engagement, and we see excellent results by participating in small events organized by local municipalities whenever possible.

For me, Turkish culture and the people of this country are genuinely warm-hearted. This is evident in the streets and everywhere I interact, whether officially or personally. I have had experiences that have helped me learn about customs and ways of life that I previously knew nothing about. One of my greatest pleasures is practicing my Turkish, even though people often do not realize that I am still at a beginner level. It is something I do every day.

Warm and Memorable
When my mission in Ankara concludes, I will, of course, remember the cuisine, the friends, the daily rhythms, and the immense support provided by the Turkish state to diplomats so that we can perform our work in the best possible way.

One thing I have noticed here that is rare in many other places is the care and attention shown to us, which makes us feel at home.

There may be many differences, but the greatest thing is to discover the similarities and also embrace the differences.

Türkiye'deki en ilginç geleneklerden biri, yolcu uğurlarken su dökülmesidir. Bu, "Seni özleyeceğiz, tekrar gel" anlamına gelir ve çok etkileyicidir.

İstanbul, Ankara, İzmir, Antalya, Rize, Kapadokya, Konya, Çanakkale ve daha birçok şehri ziyaret ettim. Türkiye'yi araba ile gezmek bana en iyi deneyimi sunuyor.

Türk insanı son derece sıcak ve misafirperverdir. Türkçe pratiği yapmak benim için büyük bir keyif.

Ankara'daki görevim sona erdiğinde; Türk mutfağını, dostlukları, günlük yaşamı ve Türk devletinin diplomatlara sunduğu desteği hatırlayacağım. Türkiye'de kendimizi evimizde gibi hissediyoruz.

Farklılıklar olabilir, ancak asıl önemli olan benzerlikleri keşfetmek ve farklılıkları da benimsemektir.
